**Special Update from Five Points Washington for our Valued Members and Guests**

Dear Valued Members and Guests,

As mandated by the Governor of Illinois as part of the Gubernatorial Disaster Proclamation, Five Points Washington will be closed to the public as of March 18, 2020. Members, you will receive a freeze on your memberships during the duration of our mandated closure. At this time, we do not have the exact time frame on when we will reopen. We will keep you informed as we learn more. Please be patient during this difficult time for all businesses and families. We understand the importance of keeping the public safe during this time of concern, but we also understand the financial burdens this causes for so many local workers and businesses.

We will update our Facebook pages, send member emails, and update the link on our main page of our website at [www.fivepointswashington.org](http://www.fivepointswashington.org).

Stay active and enjoy our **free** LES MILLS workouts offered by our partner, LES MILLS. We will also share exercise options to do at home through our Five Points Washington Facebook page. If you haven't connected with our Personal Training Facebook page or Group Fitness page, please do so. Our instructors and trainers will be sharing great tips and home exercises. Our nutrition coaches will offer great recipes and nutritious options as well. We would love to see what you are doing at home, outside or with the kids to stay active and healthy. Share with us on social media what you are doing to help keep us all connected.

Again, thank you for your patience and understanding during this time and for allowing us to serve you. We look forward to opening our doors for you very soon.

Thank you,

Five Points Washington
